Besides having a proven track record of academic excellence, CPJ College believes in the methodology of overall development of its students. GENESIS (Generating Student's Interest towards Improvement in Skills) is purely formed with the same objective and the different cells under GENESIS contribute to develop not only student's domain knowledge but also enhance their personality and boost up their confidence and belief in themselves. The students get tremendous experience through their diverse practical exposure at the respective cells of GENESIS.

The Institute helps each student in exploring placement opportunities by inviting various companies for campus recruitment of students who are in the final year of the programme undertaken and are likely to graduate at the end of the academic year.

The final placements, at the Institute, are result of very systematic interaction with the industry and continuous career counseling of the students. Right from the beginning of the programme, students are continuously counseled with respect to his/her career aspirations and options, which in turn is vigorously followed up with the potential companies for participating in the placement programme of the Institute. This not only helps the students in getting their 'dream' jobs but also assists the visiting placement companies in identifying the 'right' candidate for their organization.
